  - Pay discrepancies
  - Appendix M violations
  - Absences and lateness issues
  - Vacation requests
  - Suspensions

Brothers and Sisters,

I respectfully ask for your support and your vote between June 12-19 to **re-elect me as your MP&L Steward**. As the Plant enters an exciting new chapter, our MP&L coverage now includes the Stamping Department. With my experience as Chief Steward and 12 years representing this area, I am well prepared to take on these expanded responsibilities while continuing to provide the consistent support you expect and deserve.

Over the past two years, our membership has faced significant challenges. Throughout that time, I have worked hard to keep you informed, address issues during our transition back into the plant, and advocate for improvements where processes fell short. I remain committed to standing up for you, protecting your rights, and ensuring a safe workplace.

I am proud to serve you and dedicated to working with all members across MP&L and the Stamping Plant. I ask for your support for the next three years.

**Between June 12 to 19, vote for experience, integrity, and leadership** you can count on.

In Solidarity,

**Jason Hunter**
