

# VOTE TO ELECT Joe Schwieg

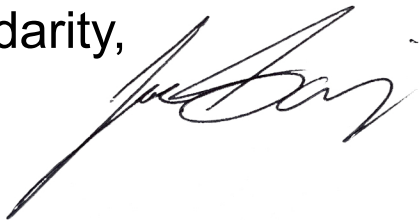

On June 19<sup>th</sup> I will be asking for your support in electing me **Steward - Shift #3**. For those I've represented over my past 3 terms, I'd like to thank you for all your past support and encouragement moving into this election.

Experience and skill is required to navigate the system and standards the company holds us to. During the past 3 terms I've used this experience to hold the company accountable to our members.

Many of us will be starting out in a brand new area or shift and we have the opportunity to influence the environment we work in. Words on a leaflet don't mean much if they aren't applied on the shop floor. I believe in being visible and approachable, it's the only way it works.
